Sir:

RENEWED INFORMATION DISCLOSURE STATEMENT

In response to the office action mailed September 15, 2004, and particularly page 5 thereof, Applicant renews his request to have DE 100 64 204 considered by the Examiner and made of record. Form PTO-1449 is attached for this purpose.

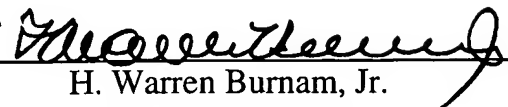

By way of the requested statement of relevance, DE 100 64 204 was cited in the European Search report for the corresponding European application as a technological background reference. The claims and Fig. 4 were noted in conjunction with application claim 1. The chair of DE 100 64 204 has a mechanism (4) connected to the front and rear of the seat (2) and to the back rest (3) which synchronizes reclining of the back rest with the seat moving forward. This consists of a slide attached to the seat front which moves in an inclined guide and curved levers attached to the sides of the back rest and rear of the seat.

The Examiner is requested to initial the attached form PTO-1449 and to return a copy of the initialed document to the undersigned as an indication that the attached references have been considered and made of record.
